## **VIRTUS Online: Protecting God’s Children training for First-Time Registrants**

The training duration is approximately an hour and a half. Please complete the training in one sitting without trying to jump ahead. If you try to fast forward and “skip” the videos, the system might close up and lock you out and you will have to register all over again. If you begin the training but then log off, you will also have to register all over again. The only person who will receive credit for the training is the person whose name is on the account. “Group Sessions” (where one person creates an account and multiple people are gathered around the computer to watch the videos) will **not** be accepted. The only group sessions that will be accepted are pre-approved, in-person trainings with a certified Virtus Facilitator.

Please note that the training modules are not compatible on smart phones or other mobile devices. Training must be completed on a laptop or desktop computer.

If training is not completed within 90 days of registration, your account will be automatically deleted and you will have to go through the registration and training process from the beginning.
