

Hartford Roman Catholic Diocesan Corporation

Fiscal Year 2025

Management Discussion and Analysis

The Hartford Roman Catholic Diocesan Corporation is financially strong and continues to be conservative with expenses to maintain good stewardship of Archdiocesan assets.

Revenues aligned with expectations and expenses continue to be increasingly allocated to Program Activities and Supporting Services. This aligns with the mission of the Hartford Roman Catholic Diocesan Corporation to provide support to our parishes, schools, and affiliate organizations, as well as direct support to those most in need.

Below I submit to you the audited Financial Statements and Report of Independent Certified Public Accountants for the Hartford Roman Catholic Diocesan Corporation for the fiscal year ending June 30, 2025.

I certify that my management responsibility is to ensure they are reviewed and evaluated with management and the auditors. There were no known deficiencies or material weaknesses that would have a material effect on the preparation or fair presentation of the financial statements, and that they are free from material misstatement and free from fraud or error.

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

The Most Reverend Christopher J. Coyne, Archbishop of Hartford
The Hartford Roman Catholic Diocesan Corporation

Opinion

We have audited the financial statements of The Hartford Roman Catholic Diocesan Corporation (the "Archdiocese"), which comprise the statements of financial position as of June 30, 2025 and 2024, and the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Archdiocese as of June 30, 2025 and 2024, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for opinion

We conducted our audits of the financial statements in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Archdiocese and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of management for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Archdiocese's ability to continue as a going concern for one year after the date the financial statements are issued.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material

misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Archdiocese's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Archdiocese's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

The Hartford Roman Catholic Diocesan Corporation

NOTES TO FINANCIAL STATEMENTS

June 30, 2025 and 2024

NOTE 1 - ORGANIZATION

The Hartford Roman Catholic Diocesan Corporation (the Archdiocese) is a canonical organization operating as a not-for-profit organization that oversees 110 separate Catholic Corporations in the Hartford, New Haven, and Litchfield counties of Connecticut. The mission of the Archdiocese is to provide ongoing support to parishes, schools and humanitarian organizations through centralized ministries and other support programs in caring for the spiritual and temporal needs of the communities.

The Archdiocese conducts a portion of the Roman Catholic Church's temporal affairs to support the Church's mission. The Archdiocese also oversees and supervises the operations of the Pastoral Center in Bloomfield Connecticut. Through specific collections and fundraising drives, the Archdiocese raises funds to support administrative functions, pastoral ministries and vocations, catholic education, ministries providing support to those who are economically disadvantaged, retired priests, and other various charitable organizations located in the Hartford, New Haven, and Litchfield counties.

The accompanying financial statements include the administrative and program offices under the direct control of the Chancery Office in the Pastoral Center and excludes the assets and accounts of activities of parishes, schools, cemeteries, supportive housing, and other affiliates (collectively, referred to as "Affiliates"). These Affiliates are separately incorporated entities under civil laws, and each Affiliate operates its respective organization distinctly from the Archdiocesan administrative offices; and maintain their own separate administration functions, services and programs.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements report on the accrual basis of accounting following the U.S. generally accepted accounting principles (U.S. GAAP) as outlined in the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) including ASC 958, *Not-for-Profit Entities*. U.S. GAAP requires the reporting of total assets, liabilities, and net assets in a statement of financial condition; reporting changes in net assets in a statement of activities; and reporting the sources and uses of cash in a statement of cash flows. Also, included within are other principles adopted by the National Conference of Catholic Bishops for Churches and Church Related Organizations. The financial statements eliminate significant inter-fund balances and transactions.

Net Assets

There are two classes of net assets, revenues, expenses, gains and losses with each being classified based on the existence or absence of donor-imposed restriction.

Net assets without donor restrictions are:

- Undesignated - net assets not restricted by donors or the donor-imposed restrictions have expired.
- Designated for a special purpose - net assets subject to self-imposed limits by the action of the Archbishop. Special purpose net assets may be used or earmarked for future programs such as vocations, educational, and pastoral programs and supporting services.

Net assets with donor restrictions are subject to donor-imposed intent as to how, when, and if the net assets are available for expenditure. Some net assets with donor restrictions are held in perpetuity, and the Archdiocese may never spend the corpus. Generally, the donors of these assets permit the Archdiocese to use all, or part of the income earned and in some cases capital gains, if any, on related investments for general or specific purposes. The corpus of these funds represents the historical value of the gift. Other net

The Hartford Roman Catholic Diocesan Corporation

NOTES TO FINANCIAL STATEMENTS - CONTINUED

June 30, 2025 and 2024

assets with donor restrictions expire upon the passage of a prescribed time or the occurrence of a stated event as specified by the donors.

Revenues increase net assets without donor restrictions on the financial statements unless donor-imposed restrictions limit the use of the related assets. Revenues from donor-imposed restrictions increase in net assets with donor restrictions on the financial statements. The financial statements report expenses as decreases in net assets without donor restrictions. Gains and losses on investments and other assets or liabilities, if any, are reported as increases or decreases in net assets. Expirations of net assets with donor restrictions (i.e., the donor stipulated purpose has been fulfilled and the specified time has elapsed) are reported as reclassifications between with and without donor restrictions in the specific classes of net assets. A donor who makes a restricted contribution in the same reporting period that the restriction is satisfied is unrestricted support in the statement of activities.

Cash and Cash Equivalents

The Archdiocese considers highly liquid investments having original maturities of three months or less on June 30, 2025 and 2024 to be cash equivalents. The cost of the cash equivalents, which consist of certificates of deposit and commercial paper, approximates fair value.

The Archdiocese maintains its cash and cash equivalents in various financial institutions in accounts which at times may exceed federally insured limits. The Archdiocese has not experienced any losses in such accounts and does not believe it has any significant credit risk on cash and cash equivalents.

Investments and Investment Income

Investments are measured at fair market value determined based upon quoted readily available market prices. There are some investments that are not actively traded and are thus without a readily available market quoted price; for these investments, other factors are applied to obtain their fair value. These investments may use a range of inputs (prices) from a similar observable class of assets. When no observable price quote exists, reliance is made on assumptions that market participants would use to price like-kind investment assets such as cash flow analysis, etc. Investment income (dividends and interest) and gains and losses on investments are recorded on an accrual basis.

Fair Value Measurements

The Archdiocese follows the provisions of ASC 820, *Fair Value Measurements*, for fair value measurements of financial assets and financial liabilities and for fair value measurements of nonfinancial items that are recognized or disclosed at fair value in the financial statements regularly. ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820 also establishes a framework for measuring fair value and expands disclosures about fair value measurements.

Under ASC 820, which prioritizes the inputs to valuation techniques used to measure fair value, the three levels of the fair value hierarchy are as follows:

- Level 1 - Quoted prices (unadjusted) in the active market for identical assets or liabilities that the Archdiocese can access at the measurement date.
- Level 2 - Quoted prices, other than those included in Level 1, are either directly or indirectly observable for the assets or liabilities, including inputs in markets that are not actively traded.
- Level 3 - No observable quoted prices; reliance on assumptions market participants would use if a market existed for the assets or liabilities.

The Hartford Roman Catholic Diocesan Corporation

NOTES TO FINANCIAL STATEMENTS - CONTINUED

June 30, 2025 and 2024

The determination of the fair value measurement is based on inputs from different fair value hierarchy levels. The level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

Accounts, Insurance Premium and Interest Receivables

The Archdiocese has accounts and interest receivables from parishes, schools and affiliated entities related to Taxa, health and welfare insurance premiums, pension contributions, and general insurance. An allowance for receivables considered doubtful as to collectability is recorded based on outstanding past due amounts. Management periodically reviews past due activity, which is generally considered balances that are 90 days or more past due. Based on that review, management determines an allowance for doubtful accounts. Any subsequent collections of past due amounts are income recovery from the allowance for doubtful accounts.

Pledges Receivable

Pledges receivables, less an appropriate reserve, are reported within Accounts Receivable from Parishes and Others. The pledge receivable balance was \$248,000 as of June 30, 2025 and 2024.

Loans Receivable

The Archdiocese has outstanding loans to certain parishes and schools for capital improvements and other needs. Loans receivable represents unsecured notes from parishes and other institutions. These loans are either term or demand notes and carry an average interest rate of 2% or are noninterest-bearing. Based on management review of collectability management records an allowance for doubtful accounts.

Property, Plant, and Equipment

Land, buildings, furniture, and equipment are recorded at acquisition cost or fair market value at the date of receipt if donated. Depreciation is provided over the estimated useful lives of the respective assets on a straight-line basis from 5 to 40 years.

Right-of-Use Asset

The Archdiocese has entered into two leases, one for office space and the other for various office equipment. On January 1, 2023, the Archdiocese entered into a 5-year space use agreement with the St. Thomas Seminary of Hartford for the use of office space for Archdiocesan offices at the Seminary. The agreement is accounted for as a lease under the provisions of ASC 842, *Leases* (ASC 842), and the Archdiocese has accordingly recorded a right-of-use (ROU) asset and lease liability which are reflected on the statement of financial position. The ROU asset is depreciated over the term of the lease, and the lease liability is reduced as payments are made on the lease.

On July 31, 2024, the Archdiocese entered into a 5.25-year operating lease with UBEO Business Services for the use of office equipment at the Seminary. The agreement is accounted for as an operating lease under the provisions of ASC 842 and the Archdiocese has accordingly recorded a ROU asset and lease liability which are reflected on the statement of financial position. The ROU asset is amortized over the term of the lease, and the lease liability is reduced as payments are made on the lease.

Impairment of Long-Lived Assets

Long-lived assets, such as property and equipment, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The recoverability of assets to be held and used is measured by comparing the carrying amount of an asset to estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of

The Hartford Roman Catholic Diocesan Corporation

NOTES TO FINANCIAL STATEMENTS - CONTINUED

June 30, 2025 and 2024

an asset exceeds its estimated future undiscounted cash flows. An impairment charge is recognized in the amount by which the asset's carrying amount exceeds the asset's fair value.

Investments Held for Others

Custodian funds are held as assets and offsetting liabilities.

Income Taxes

The Archdiocese is an organization described under Internal Revenue Code Section 501(c)(3) and is generally exempt from federal income taxes under Internal Revenue Code Section 501(a). The Internal Revenue Service has issued a Group Ruling to the United States Conference of Catholic Bishops concerning the federal tax status of Catholic organizations listed in the Official Catholic Directory, which includes the Archdiocese. Regarding unrelated business income tax, the Archdiocese reviews any transactions that may create unrelated business income tax in its organization annually. The Archdiocese does not have any material unrelated business income for the periods ended June 30, 2025 and 2024.

The Archdiocese follows the guidance ASC 740, *Income Taxes*, related to uncertainties in income taxes, which prescribes a threshold of more likely than not for recognition and de-recognition of tax positions taken or expected to take in a tax return. The Archdiocese believes it has taken no significant uncertain tax positions.

Revenue Recognition

All contributions, donations, legacies, and gifts are recorded as operating revenue unless specifically restricted by the donor. These revenue sources must be unconditional to record as revenue. No revenue is recorded where donor stipulation causes the amount to depend upon a specific future or uncertain event whose occurrence or failure to occur gives the donor a right of return on the gift or donation. Such stipulated donor-imposed gifts are initially recorded as deferred revenue. When the imposed condition occurs, the contribution would be recorded as revenue in that period. Restricted gifts that impact more than one reporting period are recognized as net assets with donor restrictions and are released to net assets without restrictions when the donor restrictions, or time restrictions, are met.

Functional Allocation of Expenses

The statement of functional expenses summarizes the costs of providing the various programs and other activities. These costs include direct and indirect costs that have been allocated consistently, among the programs and administrative expenses. Natural expenses are incurred directly in programs or functions as classified in the statement of functional expenses. Programs funded through the Archbishop's Annual Appeal or from outside contributions are classified to a specific program by its natural expense category. Certain indirect costs are reflected as All Other because the program or administrative function is not directly related.

The Archdiocese categorizes expenses to natural expense classifications such as salaries, benefits, depreciation, occupancy, professional services, grants and support, insurance and other costs.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Charges to income that involve the use of significant estimates include the self-insurance program and loss contingencies.

The Hartford Roman Catholic Diocesan Corporation

NOTES TO FINANCIAL STATEMENTS - CONTINUED

June 30, 2025 and 2024

New Accounting Standards

The Archdiocese adopted the Current Expected Credit Loss (CECL) standard as required and determined that the impact on its financial statements was not material, as the nature and volume of its financial assets resulted in minimal expected credit losses. The adoption did not result in significant changes to the Archdiocese's accounting policies, financial position, or results of operations.

Subsequent Events

The Archdiocese follows ASC 855, *Subsequent Events*, which establishes principles and requirements for subsequent events and applies to accounting to disclose subsequent events not addressed in other applicable generally accepted accounting principles. The Archdiocese evaluated events subsequent to June 30, 2025 and through February 2, 2026, the date on which the financial statements were issued.

NOTE 3 - LIQUIDITY AND AVAILABILITY OF FINANCIAL RESOURCES

The following schedule reflects the Archdiocese financial assets as of June 30, 2025, reduced by amounts not available for general use within one year of the statement of financial position date because of donor-imposed restrictions or special internal designation. The amounts not available include funds set aside for long-term investing in the General Insurance Fund reserve. However, the funds may be used but first requires the Archbishop's formal approval. These financial assets available for general expenditure, such as without donor or other restrictions limiting their use, within one year of the statement of the financial condition includes the following as of June 30, 2025 and 2024:

	2025	2024
Cash and cash equivalents	\$ 9,733,896	\$ 6,616,866
Investments	44,681,313	54,905,976
Pledges receivable, due within one year	248,000	42,000
Accounts receivable, due within one year	309,738	61,887
Loans receivable, due within one year	108,545	116,373
Other receivables, due within one year	35,000	37,953
	55,116,492	61,781,055
Less amounts unavailable within one year:		
Funds with donor restrictions	(3,319,113)	(3,106,304)
Net assets available to meet cash needs for general expenditures	51,797,379	58,674,751
Less: funds designated by the Archiepiscopal	(25,557,475)	(26,881,627)
Financial net assets available	\$ 26,239,904	\$ 31,793,124

The Archiepiscopal designates special-purpose funds from time-to-time to support educational or mission-driven pastoral purposes. These funds are invested for long-term appreciation and current income but remain available and may be spent at the discretion of the current Archbishop for the intended designated purpose.

The Hartford Roman Catholic Diocesan Corporation

NOTES TO FINANCIAL STATEMENTS - CONTINUED

June 30, 2025 and 2024

The Archdiocese manages its liquidity by developing and adopting annual operating and capital budgets that provide sufficient funds for general expenditures. Periodic actual-to-budget comparison reporting occurs at the department levels. Occasionally, the plan requires adjustments to ensure adequate liquidity.

Liquidity of Investments

The Archdiocese invests its long-term financial assets in The Archdiocese of Hartford Investment Trust (the "Trust") and has a beneficial interest in those assets. As of June 30, 2025, the Trust has approximately 54% of its assets invested in highly liquid passive and active equities, 20% in fixed income holdings, of which 34% have a short duration of fewer than three years, and cash and cash equivalents of 7%. Alternative investments consist of 19% of its assets, which include real estate, private equity, commodities, and multi-strategy and credit distressed hedge funds. Alternatives are subject to constraints that limit the Trust and, in turn, the Archdiocese's ability to withdraw capital, or specify the amount available for withdrawal at a given redemption date. The constraints may limit the Archdiocese's ability to respond quickly to changes in market conditions.

NOTE 7 - INSURANCE PROGRAM AND CONTINGENCIES

Insurance Program and Contingencies

The Archdiocese obtains property and liability insurance coverages for its offices, agencies, parishes, schools, and certain affiliates and other related religious organizations through the following entities: Catholic Mutual Group (CMG) associated with Catholic Mutual Relief Society of America (the Society),

The Hartford Roman Catholic Diocesan Corporation

NOTES TO FINANCIAL STATEMENTS - CONTINUED

June 30, 2025 and 2024

Catholic Umbrella Pool (CUP), and Cathedral Indemnity Corporation (CIC) (a Vermont regulated subsidiary Captive insurance company) all provide various insurance coverages.

The components to the Archdiocesan Insurance Programs are as follows.

- The Society, associated with CMG, places insurance coverage for Catholic (arch) dioceses and related Catholic organizations coverage through its relationship with reinsurers, including CUP. CMG obtains insurance for its members at specific risk levels, thus mitigating the overall risk profile.
- In 1987, the Archdiocese and several other dioceses formed the CUP. CUP provides participating dioceses with excess insurance liability coverage and morality coverage for its membership through liability reinsurance treaties supporting CMG. Effective May 1998, CUP incorporated as a nonprofit corporation under the Nebraska Nonprofit Act. CUP's contribution income derives from 35 (Arch) Dioceses of the Roman Catholic Church in North America that participate in CUP.
- The Archdiocese's investment in CUP uses the equity method of accounting and was valued at \$3,204,307 and \$2,814,969 as of June 30, 2025 and 2024, respectively. The Archdiocese reports its investment in CUP with its other investments on the Statement of Financial Position.
- In 2011, the Archdiocese formed a Vermont regulated captive insurance company called CIC. CIC provides insured lines of coverage, such as workers' compensation and property coverage, on the first \$100,000 per occurrence of damage with a \$500,000 annual aggregate. CIC also covers the first \$100,000 general liability per occurrence and has a \$1,000,000 annual aggregate; and \$500,000 per occurrence for automobile and no annual aggregate.

The Archdiocesan protection is structured as follows:

- CMG obtains property excess insurance coverage above the \$100,000 per occurrence and \$500,000 annual aggregate that CIC retains. CMG then provides excess insurance for claims amounts up to \$30,000,000 for damage to real property.
- CIC, CMG, and CUP provide general liability coverage as follows:
 - CIC provides general liability up to \$100,000 per occurrence and has a \$1,000,000 annual aggregate; and \$500,000 per occurrence for automobile and no annual aggregate.
 - CIC provides workers compensation insurance coverage up to \$500,000 per claim which is actively managed through Workers' Compensation Trust.
 - CMG provides general coverage above CIC up to \$500,000 of excess coverage; and auto liability coverage up to \$750,000 of excess coverage.
 - CMG with the reinsurance support of CUP and other reinsurance companies provides general and auto liability coverage over \$400,000 per occurrence up to \$30,000,000 per occurrence and the \$60,000,000 annual aggregate.

These coverages are placed through the Society and Catholic Relief Insurance Company of America.

As a participant in CUP, the Archdiocese is liable for a proportionate share of any losses beyond CUP's responsibilities to fund such losses. Such an event would happen only after liquidating the total participants' equity of \$26,705,435 and \$21,630,361 as of June 30, 2025 and 2024, respectively.

The Archdiocese of Hartford established The Archdiocese of Hartford Investment Trust (the Trust) to invest its assets in combination with similar assets owned by specific religious, charitable, and educational organizations affiliated with the Archdiocese (collectively, the Plan Participants), and to share the investment gains and losses of the Trust. The Trust operates by the trust laws of the State of Connecticut. Participation is limited to religious, charitable, or educational organizations affiliated with the Archdiocese and its supporting corporations. The Trusts' assets were held with Northern Trust (the Custodian). In addition to the agreements the Trust has with the custodian, it also maintains established agreements with various professional investment managers to manage the assets. The Trust also established investment policy guidelines and an investment committee to oversee the investment activities of the Trust. The Trust's investment committee regularly reviews the performance of investment managers. Periodically, the investment committee adjusts the investment allocations of the Trust consistent with investment objectives and assessment of risks and market conditions.

The total net investment return on the investment assets for the years ended June 30, 2025 and 2024 consists of the following components:

Total investments	\$ 397,835	\$ 497,619	\$ 2,683,664	\$ 48,511,889	\$ 54,905,976

The Equity interest in the Catholic Umbrella Pool disclosed is the carrying value of the Archdiocese's share of the pool's total member fund. This equity investment is measured using the equity method so is excluded from the fair value measurement table.

The methods and assumptions used to determine the fair value of each class of financial instruments:

- Cash and cash equivalents are at cost plus accrued interest, which approximates fair value because of the short maturity of these instruments.
- Equity securities and mutual funds are measured using quoted market prices in an active market at the reporting date multiplied by the number of shares. Fixed income securities are measured using quoted market prices multiplied by the quantity held when quoted market prices are available. If quoted market prices for debt securities are not available, the fair value is determined using quoted prices for similar debt securities. When necessary, the Archdiocese uses matrix pricing from a third-party pricing vendor to determine fair value. Matrix prices are based on quoted prices for securities with similar coupons, ratings, and maturities rather than on specific bids and offers for designated security.
- Investments in shares or units of investment funds, including the Archdiocese of Hartford Investment Trust, are recorded at net asset value (NAV) as a practical expedient determined from the funds' underlying investments in marketable equity and debt securities. The Archdiocese can redeem its investment in the Archdiocese of Hartford Investment Trust at NAV daily.
- Level 1 investments held in the Trust for others are securities that trade in active markets with quoted market prices readily available. Level 2 investments held in the Trust for others result when securities do not trade actively in the open market, but other significant observable inputs are present to determine fair value.

NOTE 11 - ENDOWMENT FUNDS

The Archdiocese's endowment consists of two individual funds, Croteau Fund and O'Connor/King Fund, which are in perpetuity Refer to Note 8 for additional details regarding temporarily restricted funds and funds held with special purpose designations.

NOTES TO FINANCIAL STATEMENTS - CONTINUED

June 30, 2025 and 2024

The Archdiocese has interpreted the laws prescribed by the State of Connecticut Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of historic dollar value of the in-perpetuity funds. Archdiocese classifies net assets with donor restrictions those funds considered in perpetuity funds. Net assets with donor restrictions category use the original value of gifts received reported as in perpetuity. The original gift value remains constant value while the accumulation of earnings of the amount in perpetuity is appropriated for expenditure by the Archdiocese in a manner consistent with the standard of procedure prescribed by UPMIFA. Per UPMIFA, the Archdiocese considers the following factors in determining to appropriate or accumulate restricted donor funds: duration and preservation of a fund, purpose of the organization and the donor designations to it, general economic conditions, the possible effect of inflation and deflation, expected total return of the charitable assets, other resources of the organization and investment policies of the Archdiocese.

The Archdiocese has adopted investment and spending policies that attempt to provide a predictable stream of funding to programs supported by its donor-restricted funds while also increasing investment value after inflation. Under these policies, the Archdiocese invests its funds to produce results that exceed the price and yield results of composite benchmarks such as: Russell large-cap growth and value, Russell 2000 small-cap, MSCI-EAFE, and the Barclay intermediate aggregate government/corporate indices while assuming a moderate level of investment risk. The Archdiocese expects its funds to provide an average total rate of return of 6.5% annually. Under the current spending policy, no appreciation from the endowment net assets has been spent during the year ended June 30, 2025.

To achieve its long-term rate of return objectives, the Archdiocese relies on a total return strategy through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Archdiocese targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk parameters.

Below is a schedule of endowed net asset balances as of June 30, 2025 and 2024:

NOTE 13 - PENSION PLANS

The Archdiocese is a participant with other related Archdiocesan organizations in two multiemployer noncontributory retirement plans covering incarnated priests of the Archdiocese and certain full-time lay employees of the Archdiocese. The risks of participating in a multiemployer plan are different from single-employer programs in the following aspects:

- Assets contributed to the multiemployer plans by one employer may be used to provide benefits to employees of other participating employers.
- If a participating entity stops contributing to the multiemployer plan due to bankruptcy or cessation of operations, the unfunded obligations of the plan related to the vested benefits of the employees of that entity would remain with the entities that continue to participate.
- If an entity were to petition to stop participating in the multiemployer plan, the entity may be required to pay the plan a withdrawal liability based on the benefit obligation related to that entity's vested employees and the plan's funded status.

Participants in the plans do not have any right or claim to a retirement benefit except upon reaching the retirement date or disability. No participant is entitled to any right or claim to a retirement benefit, except to the extent such right is specified under the terms of the plans, and retirement funds are sufficient.

The retirement plan expense is equal to the required annual contributions to the plans, calculated based upon actuarially determined methods. Cash amounts contributed by the Archdiocese to the plans for years ended December 31, 2024 and 2023 for priests totaled \$88,800 and \$89,215, respectively, and the contributions on behalf of lay employees totaled \$138,645 and \$157,950 in 2024 and 2023, respectively. Both the lay employee and priest retirement plans are funded at over 80%.

Retired priests covered by the Priests Retirement Plan are paid a specified monthly benefit that is adjusted from time-to-time by the Priests Retirement Board. For calendar year 2025, the monthly benefit is \$3,538 per month.

The basic calculation of the normal retirement benefit paid to participants in the Retirement Plan for Eligible Lay Employees is equal to:

- (a) $[1.5\% \times \text{the participant's credited service as of December 31, 2019} + 1\% \times \text{credited service after January 1, 2020}] \times \text{average earnings} \times \text{vesting percentage}$, multiplied by:
- (b) Early retirement reduction factor – a factor of 1 equates to normal retirement.

The following table discloses the name and funded status of the plans as of January 1, 2024 (the date of the latest actuarial valuation):

Legal Plan Name	Plan EIN	Present Value Accumulated Benefits	Fair Value of Plan Assets	Total Contributions	Funded Status
The Archdiocese of Hartford- Retirement Plan for Eligible Lay Employees	06-0646669	\$ 218,986,059	\$ 200,157,670	\$ 3,202,409	91.4%
Priests Retirement Plan for Secular Priests of the Archdiocese of Hartford	06-0646669	61,298,454	55,797,580	1,038,591	91.03%
Other Post-Employment Benefits for Secular Priests of the Archdiocese of Hartford	06-0646669	27,271,681	27,370,119	778,000	100.36%

The Archdiocese of Hartford Retirement Plan for Eligible Lay Employees was frozen to new participants as of January 1, 2020. In October 2025, the Archdiocese of Hartford took actions to settle a portion of the Hartford Retirement Plan for Eligible Lay Employees for those participants currently receiving retirement benefits. The Archdiocese of Hartford paid \$147,796,574 toward this settlement.

Effective January 1, 2020, the Archdiocese established the Archdiocese of Hartford 403(b) Plan, a multiemployer defined contribution retirement plan this is open to all incardinated priests and lay employees. Participants can contribute up to 100% of their salary subject to annual limits imposed by the Internal Revenue Service. Participating employers match employee contributions based a point system. A participant's points are determined as of December 31 each year and are computed by adding the participant's age and years of credited service. The points based matching schedule are as follows:

Less than 40 points	=	up to 3% of contributions
40-49 points	=	up to 4% of contributions
50-54 points	=	up to 4.5% of contributions
55-59 points	=	up to 5% of contributions
60-69 points	=	up to 6% of contributions
70-79 points	=	up to 7% of contributions
80 points and over	=	up to 8% of contributions

NOTE 14 - ESTIMATED LIABILITY FOR LOSS CONTINGENCIES

The Archdiocese is subject to various lawsuits, claims, and legal contingencies, many of which may be covered by liability insurance in whole or in part. Several matters were related to the alleged misconduct of priests and other affiliated entities through which the Archdiocese conducts its temporal affairs. Although the Archdiocese has and will continue to defend itself against such alleged claims, from time to time, the Archdiocese has agreed to settle claims related to such matters. The Archdiocese is aware of pending

legislation that may allow barred claimants to bring a lawsuit for alleged misconduct of priests. As required by generally accepted accounting principles, the Archdiocese evaluates these contingencies to determine if it is probable that a loss has been incurred and if the amount of loss can be reasonably estimated. Accruals for loss contingencies are recognized when it is probable that a liability has been incurred, and the amount is reasonably estimable.

NOTE 15 - GUARANTEES

Effective February 1, 2024, the Archdiocese has agreed to act as a guarantor on a \$10 million line of credit that has been secured from the Knights of Columbus by The St. Thomas Seminary of Hartford, an affiliated organization, to serve as a bridge financing for a project to restore the exterior walls of the Seminary building. The Archdiocese has pledged as collateral a portion of its General Reserve Fund that is held in the Archdiocese of Hartford Investment Trust.

The Archdiocese is contingently liable as a guarantor of financing arrangements to facilitate needed construction by the following corporations:

	<u>2025</u>	<u>2024</u>
Saint Thomas Seminary of Hartford	\$ 10,000,000	\$ 10,000,000
Our Lady of Fatima, Hartford	<u>100,000</u>	<u>100,000</u>
	<u>\$ 10,100,000</u>	<u>\$ 10,100,000</u>

The obligations above are collateralized by the marketable securities, land, and buildings at this corporation. However, in the event of default, the Archdiocese could be required to make payments to pay off the outstanding debt.

NOTE 16 - TRANSFER OF NET ASSETS TO RELATED PARTY

In May 2025, the Archdiocese of Hartford transferred the following funds to the Connecticut Catholic Foundation to efficiently invest the funds in assets that align with the teachings of the Catholic Church and in accordance with the United States Conference of Catholic Bishops' Socially Responsible Investment Guidelines:

- Children's Care/Welfare Fund - \$939,000
- WJMJ Fund - \$1,085,000
- the James and Catherine Smith Fund - \$185,000.

The transfer of these funds is reflected in the Statement of Activities as a transfer of net assets to a related party.

In addition, the Archdiocese contributed approximately \$1,376,000 as a contribution to the Connecticut Catholic Foundation to support the Saint Joseph Cathedral Fund.
